

MICROS Retail Standard Cash Cassette

Ideal for use with different European currencies

The spacious Standard Cash Cassette can be used with a large number of POS systems and can accommodate any type of notes and coins. It is equipped with eight removable coin compartments and four compartments for note and receipts. Removing two coin compartments increases the number of available note compartments to five.

The Standard Cash Cassette is made of high-quality plastic. Both the superior material and robust design guarantee a long service life.

Lockable cash cassette offers high security

The Standard Cash Cassette is electronically opened by the POS system. The cassette is equipped with a high-quality lock that can also be opened manually using a key. The lock ships with 50 different lock combinations. The opening status of the Standard Cash Cassette is determined and transferred to the POS system via a switch built into the base.

Key benefits of the Standard Cash Cassette:

- The Standard Cash Cassette can be snap locked quickly and securely to the base plate
- Easy removal by pressing the release button
- Long service life thanks to solid design and robust, durable plastic
- High-quality lock
- Variable coin and note compartments offer flexibility for the euro and other European currencies

Robust. Flexible. Secure.

Flexible interior – Coin, note and receipt compartments

There are eight removable coin compartments and four compartments for notes. Removing two coin compartments increases the number of available note compartments to five. By inserting a money separator, two different types of notes or receipts can be stored in a single compartment while keeping the two types separate.

Robust plastic cassette

The Standard Cash Cassette is made of robust and durable plastic. It is built for maximum longevity. In addition, the plastic used is environmentally friendly and easy to recycle.

Firmly mounted base plate

The Standard Cash Cassette system comprises a base and the Standard Cash Cassette. The base is firmly mounted to the POS counter. The Standard Cash Cassette is placed on the base and locked into place. The base contains an electronic

release unit, making it extremely simple to remove the cash cassette from the base. The cashier simply opens the cash cassette and presses the release button. This will unlock the cassette, which can then be removed with ease.

Compatible with all common POS systems

The Standard Cash Cassette can be used with all major POS systems. When the system is changed, all that needs to be replaced is the base.

Optional accessories

- External note holder
- Hand rest for the lid
- Additional note separator
